

Quizlet

This is a great website to review the vocabulary we are learning in class. Follow the steps to set up an account and to be added to the Spanish 1B group in order to practice the vocabulary we learn in class.

- 1) Go to www.quizlet.com Click on **Sign Up** at the top right hand corner of the screen. Choose a username, password and enter your email address along with your date of birth. Click **Sign Up** and now you are signed up!
- 2) Once you are logged in, type in the search box to the right of the screen **Hanson**. The results for groups will appear and look for **Hanson Spanish 1B**. Click on the group.
- 3) This will take you to a page that says **Join this Group**. The group password is **sprules** (short for Spanish Rules!). You are now part of the group and can review the vocabulary we are learning in class.
- 4) From now on when you log into your account, click on **My Groups** at the top and then you will see the Hanson Spanish 1B group you are part of.
- 5) Click on which **set** you want to work on. Each **set** tells you which vocabulary words are to be practiced. These numbers are on your Spanish 1B vocabulary list.
- 6) Once you have clicked on a **set** you want to work on, you have many different activities you can do. Be sure you click on **Show Symbols** so you can insert accents when needed. You can always use the keyboard shortcuts for accents if you know them (I have instructions on my website - profesorahanson.googlepages.com on how to insert accents using keyboard)

The activities include:

Familiarize: Online flashcards you can flip over to see both the Spanish & English side.

Learn: The English word is provided and you type the Spanish word. You can choose it to ignore lower/upper case, spaces, etc. (Look at the menu to the right)

Test: Gives you some written questions, matching, multiple choice and true/false questions. You can uncheck any question types you want (Look at the menu to the right)

Scatter: Make everything disappear! Drag corresponding items onto each other to make them disappear.

Space Race: This game is all about speed! The word moves across the screen and you need to type it correctly before it moves off the screen.
